PROFESSIONAL SUMMARY

Mid-Senior Frontend Developer with 4+ years of experience building scalable web applications and Web3 solutions across Nepal and the UAE. Specialises in React, Next.js and TypeScript, with hands-on expertise in Polkadot and Cardano ecosystems, dApp development, and E2EE secure cloud systems. Proven track record delivering SEO-optimised, pixel-perfect interfaces from Figma to production, with proficiency in Tailwind CSS, React Query and REST API integration.

EXPERIENCE

Mid-Senior Frontend Developer · Vola Solution Pvt. Ltd.

Feb 2025 – Present | United Arab Emirates · Remote

- Built and shipped client-facing web projects using React, Next.js and TypeScript, translating Figma mockups into responsive, production-ready components.
- Collaborated with cross-functional teams to integrate REST APIs, ensuring high-quality, accessible and performant user interfaces.
- Developed Web3-integrated frontend features including Vola Wallet connectivity and dApps, leveraging Polkadot and Cardano ecosystems for smart contract interactions.
- Implemented End-to-End Encryption (E2EE) for a secure cloud drive application, ensuring encrypted file storage, upload and access with full user privacy.
- Implemented best practices for performance optimisation and accessibility compliance.

Mid-Level Frontend Developer · Bidhee Pvt. Ltd.

Aug 2023 – Aug 2024 | Kathmandu, Nepal · On-site

- Led frontend development for furniturehub.com.np, a large-scale e-commerce platform.
- Implemented SEO-friendly pages using Next.js, improving organic search rankings.
- Utilised React Query for efficient server-state management, reducing load times by 30%.
- Applied Tailwind CSS to build a consistent, responsive design system across the platform.
- Worked closely with backend developers to ensure seamless API integration and data flow.

Frontend Developer · Saptacode Technology Pvt. Ltd.

Mar 2022 – Aug 2023 | Kathmandu, Nepal · Full-time

- Developed interactive React.js web applications for enterprise clients.
- Leveraged React Query for state management and data fetching across multiple projects.
- Collaborated with designers to convert wireframes into clean, maintainable code.
- Participated in code reviews and contributed to improving team coding standards.
- Assisted in scoping and estimating frontend tasks for project planning and delivery.
